*Targeting an Internship of Entry-Level Position in...*

## Software Development

- A new Ryerson graduate offering a strong foundation in software engineering and programming principles across multiple platforms.
- Experienced in object-oriented programming; developing, testing and debugging code; designing interfaces and administering systems and networks.
- Quickly learn and master new technologies; successful working in both team and self-directed settings.

## Education

Ryerson University – Toronto, Ontario

**Bachelors of Science (Honours) in Applied Mathematics and Computer Science**

Courses Completed:

- Java Programming & Data Structures
- Computer Organization and Architecture
- Database Management Systems
- Object-Oriented Design
- Information Security
- Assembly Language Programming
- Software Engineering Process Management
- Software Quality Testing
- Network Security and Threats
- Web Development and Design
- Data Analysis

Programming Languages: C, C++, C#, Java, Python (Django), R, R Studio, SQL (MySQL), HTML5, CSS, JavaScript, NodeJS, ReactJS, jQuery, Linux, Bash Scripting.

Platforms: Visual Studio, Microsoft Office, BlueJ, Eclipse, Oracle SQL Developer, GitHub, Mongo, MongoDB, Mongo Compass, Scratch, Microsoft Excel.

## Projects

**CYPRESS Website (HTML, CSS, JavaScript)** – mimics attributes from the Toronto city website, such as:

- Login/Register
- Report a Problem
- Language Selection (English/French)
- Frequently Asked Questions
- Contact Us
- Suggestion Page
- User Profile
- Change User Information
- (Official Users) Resolve a Problem

Video Description: <https://vimeo.com/536602180>

## Hotel Database Management System (SQL)

- 7 Separate Tables organized in both Horizontal and Vertical Fragmentation. Each table has specific variables assigned to it as well as arbitrary data inserted into each variable.
- 7 Queries used to sort the data from the tables
- Transaction statements used to check the capacity limit of specific variables.
- Testing the LOCK TABLE command in the SQL PowerShell

**Java Projects** - <https://github.com/rpopadiuk97/Java>

**Python Projects** - <https://github.com/rpopadiuk97/Python>

## Work Experience

### **1800-GOT-JUNK, SALES REPRESENTATIVE/DRIVER/LABORER**

AUGUST 2018 – MAY 2021

- As a driver, I developed superior negotiating skills and customer service which reflected in a top 3 ranking in the company's profitability ratings. I was also a seasonal trainer for recruits.

*EMPLOYEE OF THE MONTH* (April 2020) – Most Sales and Best Customer Reviews out of 65 drivers.

### **LOBLAWS, 396 ST CLAIR AVE W, STORE CLERK**

FEBRUARY 2016 – APRIL 2018

- Working in the meat department, I improved my communication with customers as well as working in a team.

## Volunteer Work

Participated and actively engaged in the Ryerson Ukrainian Students Club from 2018-2021

- Two years of holding the role as the Ryerson Correspondent, I was responsible for maintaining a professional relationship with the Ryerson Students Club Director. I also represented the Ukrainian Students Club at all Ryerson and Non-Ryerson meetings.
- One year as being the club's Treasurer, I was responsible for creating and managing a budget for all the events that the club hosted. We devised ideas on how we could save money and reinvest it into other events.
